**VOLUME 4, ISSUE 17**

**MAY 2018**

## SUPERINTENDENT

On January 22, the California Department of Education (CDE) invited all schools in the State of California to participate in The Great Kindness Challenge (GKC). Upon receiving the invitation, all schools in the Little Lake City School District unanimously decided to participate in this special event.

**Dr. Bill Crean**

El 22 de Enero, el Departamento de Educación de California (CDE, por sus siglas en inglés) invitó a todas las escuelas del Estado de California a participar en El Gran Desafío de la Bondad (The Great Kindness Challenge - GKC). Al recibir la invitación, todas las escuelas del Distrito Escolar de Little Lake City decidieron por unanimidad participar en este evento especial.

Presentado por Niños por la Paz (Kids for Peace), el Gran Reto de la Bondad es un programa nacional que promueve la generosidad en las escuelas desde pre-kínder hasta el doceavo grado. Es una iniciativa positiva y proactiva contra el acoso escolar que los educadores utilizan para empoderar y fomentar en los alumnos la creación de una

Presented by Kids for Peace, the Great Kindness Challenge is a national program that promotes kindness in schools from pre-kindergarten through twelfth grade. It is a positive and proactive anti-bullying initiative that educators use to empower and encourage students to create a culture of kindness. This program is also aligned with the California Department of Education's

## BOARD OF EDUCATION

As each school year comes to an end, one cannot help but reflect on the many successes of the school year as well as the positive aspects of our schools and district. As members of the Little Lake City School District, we definitely have much to be thankful for.

**Richard Martinez**  
President

Como cada año escolar llega a su fin, uno no puede dejar de reflejar sobre los muchos éxitos del año escolar, así como los aspectos positivos de nuestras escuelas y distritos. Como miembros del Distrito Escolar de Little Lake City, definitivamente tenemos mucho que agradecer.

Estamos agradecidos por:

- The privilege to educate 4,518 students with limitless potential who remind us every day why we entered this profession.
- The active support of our students' parents and guardians who entrust us with the formal education of their children.
- Teachers who responded to a professional calling and who do "whatever it takes" to ensure our students succeed.

- El privilegio de educar a 4,518 estudiantes con un potencial ilimitado que nos recuerdan cada día por qué entramos en esta profesión.
- El apoyo activo de los padres y tutores de nuestros alumnos que nos confían la educación formal de sus hijos.
- Los maestros que respondieron a una vocación profesional y que hacen "lo que sea necesario" para asegurar que nuestros estudiantes tengan éxito.

## Training Opportunities Oportunidades de Capacitación

**Parents are experimenting with sound. They had to find a person in the room with a matching sound then use items to try to create a cup with a sound that matched theirs.**

Every school year, the Little Lake City School District has parent training opportunities, based on a parent needs survey, to support students' academic, social, and emotional progress. A variety of parent trainings are offered to parents throughout the year on different topics to meet their needs. These trainings are offered in both English and Spanish to ensure all parents have the opportunity to participate.

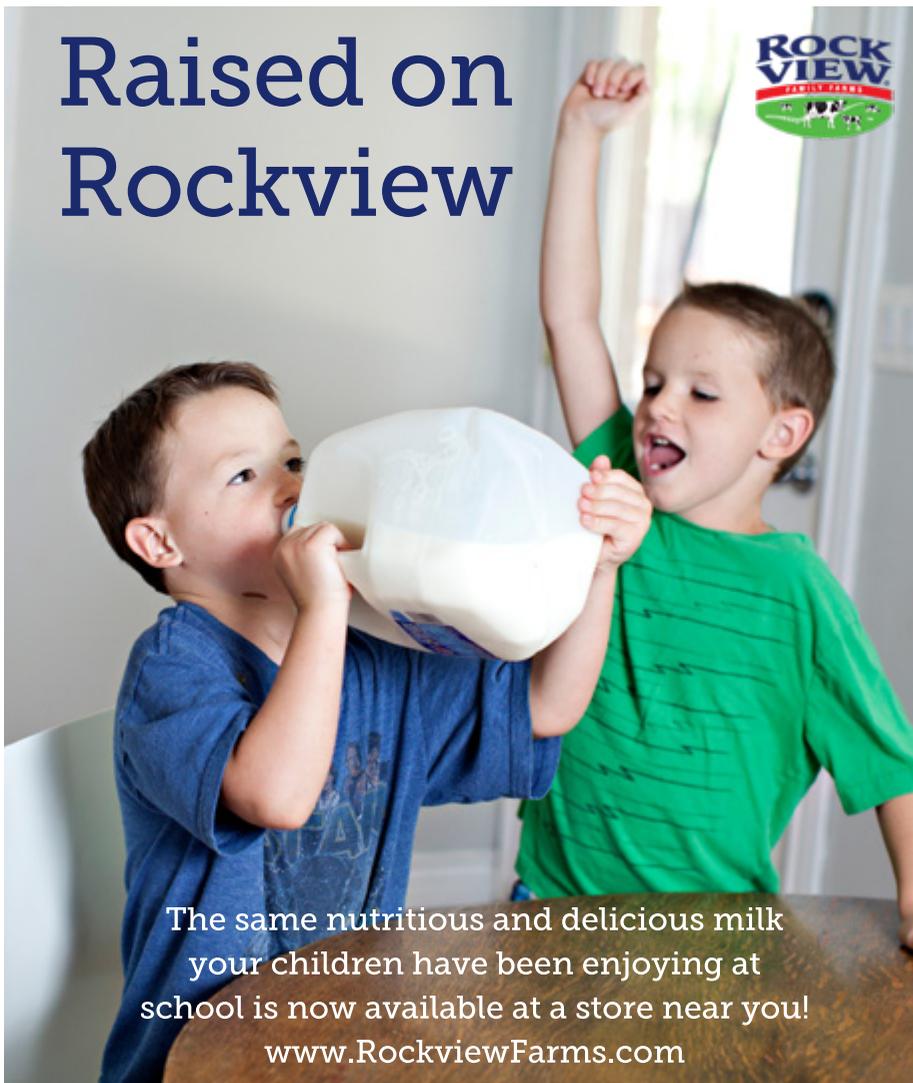

Parent trainings ranged from an academic focus on mathematics and science to developing students' social emotional health. In addition, Little Lake continues to provide college credit courses for parents through Cerritos College, as well as GED courses for parents wishing to obtain their high school equivalent diploma. A new set of trainings offered focused on parent involvement, teamwork, the "Road to College" and achieving a growth mindset.

Cada año escolar, el Distrito Escolar de Little Lake City tiene oportunidades de capacitación para padres, basadas en una encuesta sobre las necesidades de los padres, para apoyar el progreso académico, social y emocional de los estudiantes. A lo largo de todo el año escolar, se ofrece a los padres una variedad de oportunidades de capacitación sobre distintos temas para atender sus necesidades. Estas capacitaciones se ofrecen en inglés y en español para garantizar que todos los padres tengan la oportunidad de participar.

Las capacitaciones para padres variaron desde un enfoque académico en matemáticas y ciencias hasta temas de desarrollo de la salud social y emocional de los estudiantes. Además, Little Lake continúa brindando cursos con créditos académicos en educación superior a través del Colegio de Cerritos, así como cursos de GED para padres que desean obtener su

**Kay Coop**  
 Founder/Publisher

We are at the end of another school year. As I read Superintendent Dr. Crean's message on the front page, I was reminded of how much educators responsibilities have changed over the years. Rather than focus on academics educators must also include character traits in their curriculum. There was a time when kindness to others was taught beginning as an infant sharing toys, etc. Hopefully, the Kindness Challenge is one step in bringing back civility. Rich or poor kindness is affordable. Thank you for including *School News* among your reading choices.

## Cresson *Elementary*

11650 Cresson St., Norwalk, CA 90650 • 562/868-6620 • <http://cresson.llcsd.net/>

### The Golden Bell Award

We are proud to announce that Cresson Elementary School has been named a California School Boards Association Golden Bell Award Winner.

According to the CSBA, the Golden Bell Award "promotes excellence in education and school board governance

by recognizing outstanding programs and governance practices of school boards in school districts and county offices of education throughout California. Golden Bell Awards reflect the depth and breadth of education programs and governance decisions supporting these programs that are necessary to address students' changing needs. This awards program highlights best practices in education in all areas of operations, instruction and support services..."

Cresson was officially recognized at a reception on November 30th in San Diego. We are honored to be the first school in Little Lake to earn this recognition. The Cresson staff takes great pride in sharing this honor with our students and families, who are an important part of our growth and progress as a school community. Go, Team Cresson!

# Little Lake Educational Advancement Foundation

10515 Pioneer Blvd., Santa Fe Springs, CA 90670 • 562/868-8241 • [www.littlelake.k12.ca.us/leaf](http://www.littlelake.k12.ca.us/leaf)

The Little Lake Educational Advancement Foundation, LLEAF, held its eighth annual golf tournament on Friday, March 9, 2018 at the Royal Vista Golf Course. The tournament was again a success as 90 golfers registered for a day of great fun contributing toward a great cause: supporting the educational program for the school district's 4,400 students. The tournament included a round of eighteen holes of golf, a hosted lunch and impressive prizes. Special thanks go to the many individuals who made this year's tournament a success, especially: our corporate sponsors and friends of Little Lake who sponsored the event and donated prizes for the event; the LLEAF Board of Directors for their volunteered time spent organizing and running the event; the Cities of Norwalk and Santa Fe Springs for their promotion of the tournament and the donated venue for the luncheon; and, of course, the many golfers who chose to support this very worthwhile effort.

One hundred percent of the proceeds from the LLEAF golf tournament will be used to fund mini-grants submitted by Little Lake teachers this coming fall of 2018. The grants will provide experiences and supplies that will enrich the education of our students in the coming school year.

The Little Lake City School District community gives special thanks to Jeff Mahlstedt for organizing the 2018 LLEAF Golf Tournament. We are all appreciative of his generous support, leadership and dedication to the Little Lake Educational Advancement Foundation. Jeff's work over the years has helped the LLEAF Golf Tournament grow and become the successful event it is today.

Please join us for the ninth annual LLEAF golf tournament in March 2019. Your involvement in this event will directly impact the schools, classrooms and students of the Little Lake School District.

La Fundación para el Progreso Educativo de Little Lake, LLEAF, llevó a cabo su octavo torneo anual de golf el pasado viernes 9 de marzo de 2018, en el Campo de Golf Royal Vista. El torneo fue otra vez un éxito, ya que 90 golfistas se registraron para tener un día de gran diversión contribuyendo al mismo tiempo a una gran causa: apoyar el programa educativo para 4,400 estudiantes del distrito escolar. El torneo incluyó una ronda de dieciocho hoyos de golf, se ofreció un almuerzo y impresionantes premios. Un especial agradecimiento a todas las personas que hicieron del torneo de este año un éxito, sobre todo: a nuestros patrocinadores corporativos y amigos de Little Lake que patrocinaron el evento y donaron premios para el evento; al Consejo de Administración de la LLEAF por su tiempo dedicado para organizar y realizar el evento; a las Ciudades de Norwalk y Santa Fe Springs por su promoción del torneo y auspiciar el lugar para la comida; y, por supuesto, a los numerosos golfistas que decidieron apoyar este valioso esfuerzo.

El cien por ciento de los ingresos del torneo de golf LLEAF serán utilizados para financiar mini-subservenciones presentadas por los maestros de Little Lake el próximo otoño de 2018. Las subvenciones proporcionarán experiencias y materiales que enriquecerán la educación de nuestros estudiantes en el próximo año escolar.

La comunidad del Distrito Escolar de Little Lake City hace un agradecimiento especial a Jeff Mahlstedt por organizar el 2018 LLEAF torneo anual de golf. Todos estamos agradecidos por su generoso apoyo, liderazgo y dedicación a la Fundación para el Progreso Educativo de Little Lake. El trabajo de Jeff a lo largo de los años ha ayudado el LLEAF torneo anual de golf a crecer y convertirse en el evento que es hoy en día.

Únase a nosotros en el noveno LLEAF torneo anual de golf en marzo de 2019. Su participación en este evento tendrá un impacto directo en las escuelas, clases y estudiantes del Distrito Escolar de Little Lake.

## Lake Center *Middle School*

10503 Pioneer Blvd., Santa Fe Springs, CA 90670 • 562/868-4977 • <http://lakecenter.lcsd.net>

### Positive Solutions

Lake Center Middle School, home of the Leopards, uses every day as an opportunity to meet the district vision of Students First. In addition, the staff members challenge themselves to make positive connections with every student. This is being accomplished through Positive Behavioral Interventions and Support (PBIS). This system supports student success in many ways. Using both positive praise and a token economy, students are motivated to maintain focus and stay on task in class. This, in turn, impacts students' success with academics. This feeling

of success is carried with them throughout the day, which also improves interpersonal relationships with peers and adults.

Teachers are more focused on the positive contributions of students through a token economy and specific verbal praise. When a student meets an expectation, the student is greeted with praise and Leopard Loot. This "money" can then be exchanged at the student store for school supplies or spirit items. Student can also enter opportunity drawings by placing their loot in their grade-level boxes in the office. Finally, students can use their loot to attend a school-wide event.

For students who require more support, office disciplinary referrals are used to monitor student progress on a weekly basis. The assistant principal looks at referral data each Friday to see what next steps are needed for individual student interventions. The Student Success Team and PBIS team track the progress of these students in order to identify further need for intervention. Students who have multiple referrals are quickly identified and supported with appropriate interventions. They are also assigned mentor teachers to provide the necessary support. An action plan is created and implemented if the behavior problems continue. This program has led to a more positive and motivating environment for both students and staff alike.

## Jersey Avenue *Elementary*

9400 Jersey Ave., Santa Fe Springs, CA 90670 • 562/948-3772 • <http://jersey.lcsd.net>

**Dr. Michael Trimmell**  
Principal

### California Distinguished School

Jersey Avenue Elementary School is proud to announce its selection as a 2018 California Distinguished School! The California Department of Education (CDE) website states, "By using California's multiple measures accountability system, the CDE has identified eligible schools based on their performance and progress on the state indicators as described on the California School Dashboard". It is an absolute honor to be selected as one of about 300 schools in California to receive this prestigious award! Also, earlier this year it was announced that Jersey was awarded the 2017 Model Professional Learning

Community (PLC) at Work award. Jersey is one of about 200 schools in the nation to receive this award. These awards are a manifestation of the amazing work that takes place daily at Jersey!

**Jersey Avenue was awarded the 2017 Model PLC School Award as well as the 2018 California Distinguished School Award.**

# Lakeland *Elementary*

**Georgette Baltierrez**  
Principal

## PTA is Key!

The school year is quickly coming to an end. We have had a wonderful year here at Lakeland Elementary School. It is truly amazing how much has been achieved by our students, staff and parents during this school year.

Our school is successful because of the collaboration among our parents, students and staff members. Our students are meeting high standards of performance because of excellent teaching from our wonderful staff and support from our parents. We must also congratulate our students for the hard work, dedication and perseverance throughout the school year.

I would like to take a moment to thank our PTA for supporting various events at our school. Thank you to all parents on the PTA for your endless contributions and dedication to providing beneficial activities, programs and events to our school. Without your support and dedication, we would not be able to have such wonderful and successful school activities that include but are not limited to school fund-raisers, volunteering in the classroom, lunch/recess duty, staff-appreciation week, Spooky Story Night, Bingo Night, and Moms and Muffins and Dads and Donuts. We are very thankful for your generous support, and we look forward to next year.

# Lakeside *Middle School*

11000 Kenney St., Norwalk, CA 90650 • 562/868-9422 • <http://lakeside.llcsd.net/>

**Ana Gutierrez**  
Principal

## A School to Watch

What an exciting year it has been at Lakeside Middle School! One of the highlights of the year has been receiving our re-designated status as a School To Watch (STW). Lakeside joins 23 other schools in California in receiving this honor.

This process happens every three years. We have been working on refining our processes this year, and we will continue to refine our programs in the coming school year in order to improve student achievement before our reapplication in 2020. We will also provide developmentally appropriate activities for our students so they can develop skills in leadership and innovation.

State Superintendent Tom Torlakson congratulated all STW schools, focusing on our “excellent work to help students believe in themselves, set high goals, and dream big.” Our next steps include increasing articulation between our elementary schools and Santa Fe High School. Working together, with district leadership and community support, Lakeside will continue to shine for many years to come.

# William Orr *Elementary*

12130 S. Jersey Ave., Norwalk, CA 90650 • 562/868-7988 • <http://williamorr.llcsd.net/>

**Rebecca Casillas**  
Principal

## STEM Academy

William Orr recently offered its students in grades three to five an opportunity to participate in an after-school STEM class offered through our Think Together Program. With the use of LCAP funds, we funded the participation of 30 students in our first session, and 30 more students are currently in our second session.

The eight-week program is offered two times a week for two hours each session. Students participate in hands-on activities in the areas of science, technology, engineering, and mathematics. Units include food science, earthquake and engineering, forces of flight, and robotics.

Through collaboration and experimentation, students are able to participate in activities such as creating and testing paper airplanes, building and coding robots, and making toothpaste. At the end of the program the students showcase their work for their parents. It has been exciting to see the students' excitement, and we look forward to providing similar experiences in the future!

# Paddison *Elementary*

12100 Crewe St., Norwalk, CA 90650 • 562/868-7741 • <http://paddison.llcsd.net/>

**Dr. Lorena Martinez-Vargas**  
Principal

## Striving for the Best

As the 2017–2018 school year comes to an end, many of the year's highlights come to mind. Our student performances stand out. Third-, fourth-, and fifth-graders warmed our hearts at our winter holiday performance. Transitional Kindergarten and kindergarten students performed patriotic songs and recited important facts about our country and historic figures who were instrumental in building our nation during the Flag Day celebration hosted by the Lion's Club. That day we also inaugurated Friendship Field, cutting the ribbon and opening our renovated field. First- and second-graders honored our parent and community volunteers at our spring performance. The special events brought families together, unifying us all around our children's joy.

Besides these special events, there are the daily schedules. Our students and teachers work so hard that each and every student leaves the current grade well prepared for the next. Throughout the year, our daily schedules include reading groups, number talk, English language development, and so much more.

During the month of May, third- through fifth-graders are busy with the California Assessment of Student Performance and Progress (CAASPP). To support all our students during testing season, we remind all students to be prepared for school with a good night's sleep and a hearty breakfast every morning, either at home or at school, and by arriving at school every day on time. End-of-the-year testing is an important part of the overall school year experience.

Looking forward, our next academic year will be even better if we keep building positive and productive relationships with our families and our community partners. Let's work together as we embrace Paddison Elementary School's motto: Good, better, best...never let it rest. Until your good is better and your better is best!

# Lakeview *Elementary*

11500 Joslin St., Santa Fe Springs, CA 90670 • 562/868-8655 • <http://lakeview.llcsd.net/>

**Lauren Hernandez**  
*Principal*

## Magnificent March!

March was an exciting time to be on the campus of Lakeview Elementary school! We had the pleasure of welcoming numerous guests that provided our students with new experiences within the comforts of our school campus.

First, the students were able to take part in an astronomy adventure as they viewed a nighttime starry landscape, all within an inflatable planetarium.

Students were shown planets, stars, constellations and more. We also had the pleasure of welcoming “The Bully Game” to our school site. As participants in a game show, the students learned valuable lessons about teasing, bullying, gossip and, most importantly, how to stop these types of behaviors. A great time was had by all, and the students took away some very valuable lessons that the school has been able to build upon following the activity.

To end the month, our campus was turned into an 1840s mining town. Cowboy culture, life on the trail and the excitement of panning for gold were all brought to life as the students took part in various activities that would have taken place during this time period. The teachers, along with an incredible group of parents, really made the day special for our students, and it was a great way to conclude the exciting month of March.

# Studebaker *Elementary*

11800 Halcourt Ave., Norwalk, CA 90650 • 562/868-7882 • <http://studebaker.llcsd.net/>

**Paula Rode**  
*Principal*

## Working Together

As we reach the last few months of this 2017–2018 school year, I want to thank the entire community for their support and involvement.

Our Studebaker community actively supports its students and all of the special events that can help make school both fun and educational. The Studebaker PTA and parent volunteers have worked hard this year to provide some great opportunities for everyone. This includes events like our Spooky Story Night, Moms and Muffins, Dads and Donuts, the Jog-A-Thon, and our annual fundraisers.

This year we added Family Game Night. We had over 225 participants in this fun opportunity for our families to interact with each other. The games included Jenga, Connect Four, Operation, Tic Tac Toe, checkers, and Gone Fishin', to name a few.

Thanks again to our staff, students, and parents for working together to provide a safe, positive, and nurturing educational environment for all. Student success and well-being are our No.1 priorities.

Several local community centers are providing trainings on emotional health and parenting courses. Finally, early this school year, Cyber Safety Cop provided parents effective ways to monitor their students use of technology, with a focus on social media. The district math coaches provided a series of parent trainings per grade level at different school sites that focused on growth mindset and on specific math strategies that their children use at school and at home for homework.

During our parent District Advisory Committee (DAC) and district English Learner Advisory Committee (DELAC), district Math Coaches and Science Specialist provided parent training on specific math strategies and on Next Generation Science Standards (NGSS). These trainings are provided on a monthly basis during each DAC/DELAC meeting. The trainers create interactive and engaging workshops and put parents in the learner's seat. Parents have been appreciative of the deeper understanding they have on math and science instruction.

During a recent DAC/DELAC meeting, parents participated in a lesson facilitated by the district's Science Specialist. The objective of the lesson was to create a sled, using a variety of materials, that would slide down a slope and continue to slide onto a flat surface. Similar to real engineers, parents were asked to work collaboratively in small groups to build their sleds. Groups tested their sleds and made modifications to make the sleds slide farther. Parents were highly engaged and were immersed in the interactive, hands on lesson.... just like our students!

During a subsequent DAC/DELAC meeting, district Math Coaches provided parents with math training focused on the progression of division and partial quotients. The training began with an overview video of how division progresses from 3rd to 6th grade. The focus of the use of manipulatives and models was evident throughout the training. Parents later worked in partners to solve division problems using this strategy. Parents shared that most have seen their children use this strategy at home with homework. Parents shared their school experiences when they learned about division. A parent stated that they were taught the steps to division, but lacked the conceptual understanding of division. One parent ended the training with, "I love common core math!" Overall, this training was successful and parents were appreciative of their new learning.

diploma de escuela preparatoria equivalente. Se ofreció una nueva serie de capacitación enfocado en la participación de los padres, el trabajo en equipo, el "Camino a la Universidad" y en cómo lograr una mentalidad de crecimiento. Varios centros comunitarios locales ofrecen capacitación en salud emocional y cursos para padres. Por último, a principios de este año escolar, Seguridad Cibernética brindó a los padres maneras efectivas de monitorear el uso de la tecnología por parte de los estudiantes, con un enfoque en las redes sociales. Además, los capacitadores de matemáticas del distrito proporcionaron una serie de entrenamientos para padres por nivel de grado en diferentes planteles escolares que se enfocaron en la mentalidad de crecimiento y en estrategias específicas de matemáticas que sus hijos usan en la escuela y en el hogar para realizar las tareas.

Durante nuestro Comité Asesor del Distrito (DAC) y el Comité Asesor del Distrito de Padres de Estudiantes Aprendiendo Inglés (DELAC), los Capacitadores de Matemáticas y el Especialista en Ciencias proporcionaron capacitación para padres sobre estrategias específicas de matemáticas y sobre los Estándares de Ciencia para la Próxima Generación (NGSS). Estas capacitaciones se brindan mensualmente durante cada reunión de DAC/DELAC. Los capacitadores crean interesantes talleres interactivos y colocan a los padres en el lugar del alumno. Los padres han agradecido la comprensión más profunda que tienen sobre la instrucción en matemáticas y ciencias.

Durante una reciente reunión de DAC/DELAC, los padres participaron en una lección organizada por el Especialista en Ciencias del distrito. El objetivo de la lección era crear un trineo utilizando una variedad de materiales, que se deslizara por una pendiente y continuara desliziéndose sobre una superficie plana. Al igual que en el caso de los auténticos ingenieros, se les pidió a los padres que colaboraran en grupos pequeños para construir sus trineos. Los grupos probaron sus trineos e hicieron modificaciones para hacer que los trineos se deslizaran más. Los padres estuvieron muy participativos y se sumergieron en la lección interactiva práctica... ¡al igual que nuestros alumnos!

Durante una reunión posterior de DAC/DELAC, los Capacitadores de Matemáticas del distrito proporcionaron a los padres capacitación en matemáticas enfocada en la progresión de la división y los cocientes parciales. La capacitación comenzó con un video general de cómo progresa la división de 3er a 6to grado. El enfoque del uso de material didáctico manipulativo y el uso de modelos fue evidente a lo largo del entrenamiento. Posteriormente, los padres trabajaron con un compañero para resolver problemas de división utilizando esta estrategia. Los padres compartieron que la mayoría ha visto a sus hijos usar esta estrategia en casa con la tarea. Los padres compartieron sus experiencias escolares cuando ellos aprendieron sobre la división. Un padre dijo que se les enseñó los pasos para la división, pero les faltaba la comprensión conceptual de la división. Uno de los padres terminó la capacitación con: "¡Me encantan las matemáticas básicas comunes!". En general, esta capacitación fue exitosa y los padres valoraron su nuevo aprendizaje.

**SUPERINTENDENT • From Page**

efforts to meet the social and emotional needs of the whole child as well as ensure a safe haven for all of our students.

All nine of Little Lake City School District schools participated in the Great Kindness Challenge. Some of the different activities that took place at our school sites included:

- Announcing a daily KIND Quote of the Day at Cresson
- Writing a KIND note to others at Jersey
- Coloring notes of KINDNESS at Lakeland
- Writing a KIND Reflection Page at Lakeview
- Wearing hippie attire and spreading Peace & KINDNESS at William Orr
- Highlighting a daily KINDNESS theme at Paddison
- Reading a book about KINDNESS at Studebaker
- Creating a KIND moment in a photo booth at Lake Center
- Playing a KIND game of Monster Bubbles at Lakeside

**Dr. Bill Crean**  
Superintendent

By participating in The Great Kindness Challenge, our teachers, staff and principals were able to focus everyone's attention on the power of kindness and hopefully instill the message that kindness is not something we do for just a week, it is something that is practiced every day.

Also, on February 23, students, teachers, administrators and special guests inaugurated the newly renovated Paddison grass field. Dr. Martinez-Vargas, Principal of Paddison Elementary, Dr. Bill Crean, Little Lake City School District Superintendent, and School Board Members Dora Sandoval, Hilda Zamora and Richard Martinez led the ribbon cutting ceremony as everyone welcomed Friendship Field! This newly renovated field along with the newly renovated fields at Cresson, Jersey, Lakeland, Lakeside, and Studebaker completes the LLCSD field modernization project that was begun in 2016. We thank all of you for your patience and support as we work to improve our school grounds and structures.

cultura de bondad. Este programa también está alineado a los esfuerzos del Departamento de Educación de California para satisfacer las necesidades sociales y emocionales con una perspectiva integral del niño, así como para garantizar un lugar seguro para todos nuestros estudiantes.

Las nueve escuelas del Distrito Escolar Little Lake City participaron en el Gran Desafío de la Bondad. Algunas de las distintas actividades que se llevaron a cabo en nuestras escuelas incluyeron:

- Anunciar una frase diaria de BONDAD en Cresson
- Escribir una nota BONDADOSA a alguien más en Jersey
- Colorear notas de BONDAD en Lakeland
- Escribir una página de reflexión sobre la BONDAD en Lakeview
- Usar un atuendo hippie y difundir un mensaje de Paz & BONDAD en William Orr
- Destacar un tema diario de BONDAD en Paddison
- Leer un libro sobre la BONDAD en Studebaker
- Crear un momento BONDADOSO en una cabina de fotos en Lake Center
- Practicar un juego BONDADOSO de Monster Bubbles en Lakeside

Al participar en El Desafío de la Bondad, nuestros maestros, personal y directores pudieron enfocar la atención de todos en el poder de la generosidad y esperando inculcar el mensaje de que la bondad no es algo que realizamos solamente una semana, sino que es algo que se practica todos los días.

Además, el 23 de Febrero, estudiantes, maestros, administradores e invitados especiales inauguraron el recientemente renovado campo de césped en Paddison. Dr. Martínez-Vargas, Director de la Primaria Paddison, el Dr. Bill Crean, Superintendente del Distrito Escolar de Little Lake City y los miembros del Consejo Educativo, Dora Sandoval, Hilda Zamora y Richard Martinez encabezaron la ceremonia de inauguración mientras todos daban la bienvenida al Campo de la Amistad! Este campo recientemente renovado junto con los campos recién restaurados en Cresson, Jersey, Lakeland, Lakeside y Studebaker completan el proyecto de modernización de campos de césped en LLCSD que se inició en 2016. Les agradecemos a todos su paciencia y apoyo mientras trabajamos para mejorar nuestros terrenos y estructuras escolares.

**BOARD OF EDUCATION • From Page**

- A talented support staff that literally keeps the district running and enables teachers to perform their jobs.
- Administrators who lead at the school and district levels and who model the core values of commitment, collaboration, passion and determination.
- A strong web of community support provided by business and civic leaders that reinforces our effectiveness in serving students.
- A Board of Education that works as a team and maintains the needs of students and the district as their top priority.

We wish all of our students and families the best as we move to the end of another school year. We look forward to coming back in August for another successful year of teaching and learning.

- Un talentoso personal de apoyo que literalmente mantiene el distrito en funcionamiento y hace posible que los profesores sigan desempeñando su labor.
- Administradores que dirigen a nivel escuela y a nivel distrito y que son modelo de los valores fundamentales de compromiso, colaboración, pasión y determinación.
- Una fuerte red de apoyo de la comunidad, proporcionado por líderes empresariales y cívicos, que refuerza nuestra eficacia en el servicio a los estudiantes.
- Un Consejo de Educación que trabaja en equipo y mantiene las necesidades de los alumnos y el distrito como su principal prioridad.

Les deseamos lo mejor a todos nuestros estudiantes y familias a medida que avanzamos hacia el final de otro año escolar. Esperamos volver en agosto para otro año exitoso de enseñanza y aprendizaje.

### FEATURED KEYNOTE

#### Antoinette Tuff

**The Inspiring True Story of How One Woman Saved an Atlanta School Under Siege.**

Antoinette Tuff's courage and faith prevented tragedy for 870 children while a school was under siege by a heavily armed gunman. As the nation faced yet another Sandy Hook story of tragedy, one woman rewrote the ending. Antoinette will share her survival techniques that she used on that fateful day to disarm the shooter.
